

"Hello, my name is Will and I am Head boy and my name is Aarav and I am Deputy Head boy. We believe representing the school is an honour and one we're very proud of.

We wanted to say a few words about Bovingdon Primary Academy and why we think it would be a good school for your child.

Firstly, we really believe the school provides a great education with amazing hard-working teachers and well-mannered students. At the very beginning, when you're in reception, each child is paired with a buddy from year 6 who will help them settle into the school. We both remember our buddies from when we started and hope that now we're in year 6 our buddies in reception will remember us when they get to their last year. There are lots of friendly and caring peers, not to mention the dinner ladies who provide delicious lunches.

Secondly, we are provided lots of opportunities to express ourselves and display different talents such as speaking, maths, talent shows and sports events. Every year, everyone takes part in a speaking competition which is a great chance to gain confidence in public speaking. We have maths competitions so pupils can show their amazing skills as well as other golden opportunities for them to show their talents and embrace what makes them unique. At the end of each year we have a sports day with individual and team events where you get to learn new skills you can use in your daily life.

Thirdly, there are lots of theme days throughout the year. A favourite is World Book day where you can dress up as any book character you want and European languages day where we learn about other countries in Europe and celebrate the languages spoken in our school community. We have lots of extremely fun school trips every year such as going to Whipsnade zoo in reception, a space museum in year 5 and going to Harry Potter World in year 6.

In conclusion, we have really enjoyed our adventure at Bovingdon Primary Academy and would love for your children to

have the same experiences as we have. Every moment here has been fantastic – we always feel safe and happy which enables us to thrive. We truly believe that we belong, have lots of possibilities and are given the tools to achieve in anything we put our minds too!"
